WORK EXPERIENCE

REA GROUP

August 2025 - Present

Senior Software Engineer

- Looking after customer-facing APIs for lenders and mortgage brokers.
- Slice-leading the implementation of new product features.
- Driving ways-of-working and workflows improvements.
- Leading overhaul and simplification of documentation.

Software Engineer

July 2022 - July 2025

- Maintained and enhanced the internal platform for deploying cloud resources into AWS at scale. Based on Kubernetes, CloudFormation and Custom Controllers running on AWS Fargate.
- Developed the internal "Platform as a Service" for deploying applications. Based on Kubernetes, Terraform, Helm and ArgoCD.

LIQUORICE (DESIGN STUDIO)

May 2021 - June 2022

Full Stack Developer

- Built several custom web apps using micro-services hosted in AWS and deployed with Docker and GitHub Actions, among others.
- Took bespoke UI designs and turned them into beautiful websites, using primarily Nuxt.js and TailwindCSS.
- Set up many Google Tag Manager implementations in diverse use cases and applications, including Single page applications.

FREELANCE

2020 - 2021

Software Engineer

- Developed clients' MVPs using mainly Django, Vue.js and Heroku.
- Improved clients' data products by using Web Scraping techniques.
- Helped clients increase their online sales by customising their e-commerce platforms (Shopify, Squarespace, among others)

MARKETING ROLES

2016 - 2019

Cornershop (App by Uber) and HammaJack (Agency)

- Helped to raise US\$21M in a Series B funding round, by conducting a 3-month CRM Marketing Campaign.
- Developed and optimised clients' websites with CSS and JavaScript.
- Became an SQL and Google Tag Manager Guru.
